## CLEANING UP DASH FOR NORWICH

With a View to Fire Prevention, November 9 and 10

Have Been Named by Chief Stanton For That Purpose.

In line with other cities, the idea  
of starting a fire prevention campaign  
is being advanced by Chief Stanton,  
who considers that there is ample op-  
portunity for such practice here,  
well as in all cities and the value of  
such is inestimable. It is a commend-  
able move, as fire prevention is cheap-  
er than fire protection and much can  
be done to carry it out.

While every day in the year should  
be cleaning-up day, yet it is a good  
idea, believes the chief that certain  
days be designated for such a pur-  
pose, and the sooner the campaign  
will be successful. He is taking up  
the matter through the schools and  
has written to superintendents con-  
cerning the effort, which is well set  
forth in the following letter:

Dear Sir: As we cities through-  
out the country are designating a fire  
prevention day, and in order that our  
city may be the first to do so, I am  
moving that we will tend to lessen the  
number of fires and the enormous loss-  
es that are caused through fires, most-  
ly through ignorance and carelessness,  
it is my purpose to designate Novem-  
ber 9 and 10, although I am a be-  
liever in every day of the year being a  
fire prevention day, as the fire pre-  
vention day of the being the an-  
niversary of the big fire in Boston,  
November 9 and 10, 1872, when Nor-  
wich was destroyed. Two steam  
fire engines, three hose carriages and  
upwards of 150 men with 2,000 feet  
of hose, did not succeed in saving the  
city from the flames. The fire was  
caused by a man who was smoking  
in a room where there was a large  
pile of lumber. The fire spread so  
fast that it resulted in a money loss of  
\$75,000.00. The fire was caused by a
